CORRESPONDENCE

PAROWAN.

Parowan, Utah, July 20, 1905.

The county commissioners were in session here last Monday and transacted the following business.

The tax levy was fixed at three mills for county and two mills for county school purposes.

An ordinance authorizing bounty on jack rabbits was repealed.

Herbert Adams was appointed justice of the peace for Cedar City precinct to complete the unexpired term caused by the death of Charles M. Ahlstrom.

John S. Woodbury was appointed to act as deputy county attorney during the absence from the county of E. H. Ryan, who goes to visit relatives in the east.

The treasurer's financial statement was approved showing a balance in the treasury of \$489.90.

Last Sunday evening three of the young ladies of this place had been taking a ride about town on a hay rack, with John Dalton as teamster. Dalton stopped in front of his home and went into the house to get some bedding, as he was going to the hay rack. While gone the team started to run. Two of the young ladies jumped from the rack, but the third stayed with the wagon. The team ran half a block when they ran straddle of a telephone pole. The wagon was stopped and the pole broken in two pieces. The team continued to run. The young lady fortunately escaped uninjured.

The Diamond Cure.

The latest news from Paris is that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia it will, however, be best for you to take that great remedy mentioned by W. T. McGee of Vanleer, Tenn. "I had a cough for fourteen years. Nothing helped me until I took Dr. King's New Discovery for Consumption, Coughs and Colds which gave me instant relief, and effected a permanent cure." Unequalled quick cure for Throat and Lung Troubles. Price 50 cents and \$1, guaranteed. Trial bottle free.

Alfred Froyd, J. H. Arthur and Alex H. Rollo returned from Panguitch lake last evening where they witnessed the field examination for forest rangers on the Sevier reserve. On account of one of their horses taking sick on the way over they arrived just an hour too late to enter for the examination. 35 applicants took the examination and 6 were debarred on account of arriving too late. The field examination consisted of rifle and pistol shooting, packing, saddling and unsaddling horses, estimating timber, mapping, etc. There are to be three riders or rangers employed on this part of the reserve, two of whom are likely to be chosen from the other side and one from this side of the range of mountains embraced by the reservation. The wages will be \$60 per month for six months in the year, and the work is said to be no picnic. Some of those taking the examination have applied for positions on the Pine Valley reserve.

The Right Way Through Mountains.

If you intend going to Colorado or the east and wish to see the Rocky Mountains at their best, there is only one right way and that is via the "Colorado Midland." We go on top of the mountains, not through them. The service and equipment on the "Midland Route" cannot be excelled. Ladies and children traveling alone receive every attention and courtesy possible. Let us know if you are going east or if you have friends coming westward and we will gladly quote rates and make all arrangements. Cheap rates both east and west—off and on—during the summer. We can save you money. Illustrated literature on request. Ticket Office 77 west Second South,

L. H. HARDING.

General Agent, Salt Lake City.

During the absence of our foreman at Panguitch the greater part of this week, the office force has consisted of the editor and a young lady. It has kept us rustling, as you can guess, and had it not been for the help we have received from contributors to our mail box, it is doubtful if we could have made the rifle. Our mail box promises to be a good bit.

We are informed that three or four young ladies at Parowan are considering the advisability of entering for the young ladies' prize in our voting contest. Some would doubtless already have entered had it not been for a misunderstanding. That's right girls. Sail right in. That Estey organ is a peach, and you have just as good a chance of landing it as any body else.
